BIODIESEL

No	Parametres	Norm
1	Cetane number, not more than	51
2	Density at 15°C, kg/m ³ , within	820-845
3	Characteristic of distillation: 95 % quantity of fractional composition, within temperature not more than	360
4	Content of polycyclic aromatics, % (m/m), not more than	11
5	Sulfur content, mg/kg, not more than	50
6	Temperature of filterability in summer time, 0 C, not less than	minus 5
7	FAME (RME), %, not less than	>31

* According to own corporate standard for product. There are possible other margins of RME
